

LL.M. International Business Law

PARIS - SINGAPORE - MAURITIUS

Maria Pilar Michielin Zurita
Singapore campus 2017

"The LL.M. program was a life-changing experience, which enabled me to embrace international business law in its global plenitude, i.e., to engage in rigorous high-level, multidisciplinary case studies and discussions through advanced education. Moreover, I cannot fail to emphasize that this program, which combines theory with practice, represents an unparalleled chance for an ample, thrilling education in life and culture, in connecting with different ways of thinking about and understanding the international scenario."

Louis-Marie Morin
Singapore campus 2017

"The LL.M. provides a comprehensive overview of the fundamental areas of international business law, and its both theoretical and practical approach is an efficient preparation for an international legal career. The comparative perspective of the course, has allowed me to gain special insight in various Asian countries' legal frameworks. In addition, the possibility to combine the LL.M. with a part-time job has given me the unique opportunity to have a practical legal experience in the highly dynamic market of Singapore."

Prema Raghunandan
Mauritius campus 2017

"The LL.M. program taught by eminent professors of Paris II and seconded by talented and experienced professionals was very enriching and innovative at the same time. I strongly recommend this program to all professionals looking for a thorough understanding of doing business within an international legal framework. The high standard of the institution and the quality of the tailor-made modules add substantial value to this program. I personally enjoyed each module which gave me the skills to be more detailed and to apply the knowledge acquired in my day-to-day work."

Thomas Raymond Byrne
Paris campus 2017

"My professional practice started to involve more and increasingly complex cross-border, international issues, such as international arbitration, international project financing and cross-border taxation. The Assas-Sorbonne LL.M. degree has equipped me with a strong theoretical framework in which to view these issues. We were given lectures and case-work by subject-matter experts from various law firms. This practical experience coupled with the strong theoretical framework has proved invaluable."

This program deals mainly with practical case studies and certain key subjects, with a pluridisciplinary focus. It prepares students and professionals for operations such as large acquisitions or market transactions, cross border mergers, complex financing, restructuring, LBOs, financial engineering, and industrial projects. These are interesting operations, offering difficulties that often lead to innovative solution seeking. It is particularly educational to study them and analyse the legal, financial or accounting issues raised. Thus, contracts, guarantees, financing and international trade litigation, among other basic subjects, can be studied from different angles.

MODULES

INTERNATIONAL CONTRACTS

Legal and contractual scope and treatment applicable to international contracts.

MERGERS AND ACQUISITIONS

Various forms of companies and concentrations between firms; rules governing mergers and acquisitions in an international environment.

INTERNATIONAL CAPITAL MARKETS

Rules governing European and international capital markets.

STATES AND INTERNATIONAL TRADE LAW

Main principles and rules of international trade law applicable to public contracts: BOT (Build-Operate-Transfer Contracts); public-private international partnerships; litigation related to State contracts.

COMPETITION LAW

Purpose and characteristics of competition law (excluding the law of unfair competition) at the international and European levels.

INTERNATIONAL FINANCING

Characteristics of banking law at international level.

ENVIRONMENTAL AND SUSTAINABLE DEVELOPMENT LAW

Principles governing environmental policy and international and European environmental law.

INTERNATIONAL ARBITRATION

Resolving disputes through international arbitration (commercial, investment); the principles governing arbitration agreements, proceedings and awards.

INTERNATIONAL TAX LAW

Subsequent to the Taxation and Customs Law course, this course considers the international aspects of taxation and provides an introduction to the key issues of this branch of international law.

INTERNATIONAL INTELLECTUAL PROPERTY LAW

This course will focus on the international legal instruments which enable the right balance between the interests of innovators and the wider public interest.

All courses given in English take the form of seminars taught by professors from Pantheon Assas University, as well as practitioners from law firms and major companies.

LL.M. International Business Law

PARIS - SINGAPORE - MAURITIUS

INSEAD CERTIFICATE

The LL.M. International Business Law is relevant for students willing to pursue the Certificate with INSEAD. Candidates wishing to deepen their knowledge of key management topics will now have the opportunity to complement their law studies with an additional four months of management courses. These courses will be taught by INSEAD faculty, and include subjects such as finance, accounting, organizational behaviour, strategy and economics. Admission will be based on academic transcripts, professional experience, documented fluency in English and an interview. After completion of the management courses, students will receive a certificate of participation from INSEAD.

The cost of the additional study period at INSEAD is approximately €15,000. Grants are possible.
