

# LL.M. International Business Law

PARIS - SINGAPORE - MAURITIUS

**Shaan Kundomal**  
Maurice 2016

"The LL.M. Programme has proved particular relevant in my field, international corporate structuring and international finance. The flexibility and frequency of courses meant that I could fulfil my professional obligations in Mauritius and abroad. Being able to interact with the top notch professors from one of best law schools in France, while being in Mauritius has been a wonderful experience."

**Luiza Berlin**  
Singapore 2016

"The LL.M is a very good opportunity because it combines theory with practice, which enables huge professional growth and a good preparation for the international market. Having professors and students from all over the world enriches the experience and provides a different perspective in International Business Law. In addition, the opportunity to study in Singapore is a unique chance to experience the dynamism of the Asian market and its different cultures."

**Marin Houette**  
Singapore 2016

"This LL.M. program, on the campus of Singapore, is one of the best experiences I had, both professionally as well as culturally. I found the overall program insightful, in particular thanks to its practical approach. The possibility to work aside allowed me to have an overview of doing business in Asia, which is really helpful for an international career."

**Laurens Schellekens**  
Paris 2016

"When I graduated last year from my LL.M. in International & European Law I was looking for another LL.M. in another field of law that always interested me, namely business law. [...] I decided to apply for the LL.M. IBL at Sorbonne-Assas International Law School for several reasons: it offered by far the most interesting program; furthermore, I really enjoyed the dual 'approach', which makes this program stand out when compared to other LL.M.'s. The program consists of two parts, where the first part is focused on the theories (given by topnotch professors), the second part is the practical part, [...]. Thanks to this LL.M. I expanded my knowledge of business law, improved my languages, made a lot of new friends, from all over the world and was able to secure my dream-job."

This program deals mainly with practical case studies and certain key subjects, with a pluridisciplinary focus. It prepares students and professionals for operations such as large acquisitions or market transactions, cross border mergers, complex financing, restructuring, LBOs, financial engineering, and industrial projects. These are interesting operations, offering difficulties that often lead to innovative solution seeking. It is particularly educational to study them and analyse the legal, financial or accounting issues raised. Thus, contracts, guarantees, financing and international trade litigation, among other basic subjects, can be studied from different angles.

## MODULES

### INTERNATIONAL CONTRACTS

Legal and contractual scope and treatment applicable to international contracts.

### MERGERS AND ACQUISITIONS

Various forms of companies and concentrations between firms; rules governing mergers and acquisitions in an international environment.

### INTERNATIONAL CAPITAL MARKETS

Rules governing European and international capital markets.

### STATES AND INTERNATIONAL TRADE LAW

Main principles and rules of international trade law applicable to public contracts: BOT (Build-Operate-Transfer Contracts); public-private international partnerships; litigation related to State contracts.

### COMPETITION LAW

Purpose and characteristics of competition law (excluding the law of unfair competition) at the international and European levels.

### INTERNATIONAL FINANCING

Characteristics of banking law at international level.

### ENVIRONMENTAL AND SUSTAINABLE DEVELOPMENT LAW

Principles governing environmental policy and international and European environmental law.

### INTERNATIONAL ARBITRATION

Resolving disputes through international arbitration (commercial, investment); the principles governing arbitration agreements, proceedings and awards.

### INTERNATIONAL TAX LAW

Subsequent to the Taxation and Customs Law course, this course considers the international aspects of taxation and provides an introduction to the key issues of this branch of international law.

### INTERNATIONAL INTELLECTUAL PROPERTY LAW

This course will focus on the international legal instruments which enable the right balance between the interests of innovators and the wider public interest.

All courses given in English take the form of seminars taught by professors from Pantheon Assas University, as well as practitioners from law firms and major companies.

## INSEAD CERTIFICATE

The LL.M. International Business Law is relevant for students willing to pursue the Certificate with INSEAD. Candidates wishing to deepen their knowledge of key management topics will now have the opportunity to complement their law studies with an additional four months of management courses. These courses will be taught by INSEAD faculty, and include subjects such as finance, accounting, organizational behaviour, strategy and economics. Admission will be based on academic transcripts, professional experience, documented fluency in English and an interview. After completion of the management courses, students will receive a certificate of participation from INSEAD. The cost of the additional study period at INSEAD is approximately €15,000. Grants are possible.
